X SERIES® MAX LOAD - 1400 KG

Strong points

1 9 fold welded construction

Proven technology based on fully welded offers high flexibility and stability. The welded structure in the frame guarantees freely selectable arrangement of accessories.

2 X SERIES New heavy duty rack (Open Frame)

Increased stability compared with the classic X SERIES for static loads of 1,400kg and more. Use of newly designed more stable extrusions and new, heavy duty corner welded.

3 X SERIES New heavy duty rack (Primary)

Includes 1 open frame, 2 perforated steel door, 2 side panels, 1 fully vented top panel, 2 pair 19" panel mount angle, 3 pair horizontal mount support, 4 castor and 4 leveling feet.

4 IP and Anti-Shocking seal Protect

Front, rear and side door full length high-grade steel IP seal for protection and environmental influences.

5 Cable management

Top cover provided four \varnothing 110mm. cable access and cover, Guaranteed orderly and space - saving cable management. Adjustment at installation site, cable management can be selected from extensive range of accessory components.

6 Flexible ventilation components

The correct ventilation solution is always provided by the corresponding selection of accessory components. Still applicable form X SERIES: 75% perforation, which guarantees unobstructed airflow of the installed components.

7 PDU Mounting Kit

Easily mount all power distribution unit.

X SERIES® 19" Heavy Duty Server Rack

Feature:

- Very Strong 9 fold welded frame, 1400kg loading
- Basic version, with perforated single door at front and rear
- Perforated door to prove excellent thermal management 75 % perforation
- Fan unit options 2- 6 cooling fan
- 3 standard height options: 45U, 42U and 37U
- 6 depth options: 1250mm, 1150mm, 1050mm, 950mm, 850mm and 650mm
- Special 19" server extrusions for mounting all trade standard 19" server
- Components in acc. With IEC 60297
- Design door at the front with coloured offset perforation
- Cable entry on the top cover and bottom, can be completely removal and replacement after cabling

Single Perforated Door

Basic Package Configurations

- 9 Folds full Welded frame, 2.0mm thickness Steel, (1400kg loading)
- Single hexagon perforated steel front door w/ALO Swing handle lock
- Single hexagon perforated steel rear door w/ALO Swing handle lock
- Lockable Quick release side panel x 2
- Perforated top cover w/ 4 x Ø 110mm cable Access and Plastic cover
- Full height adjustable 19" panel mounting angle w/U marking x 4
- Full height adjustable Aux. side mount panel x 2
- Full depth horizontal mounting support x 6
- Full height adjustable vertical cable tray x 2 (75mm wide)
- Heavy duty castor & leveling feet x 4
- M6 cage nuts, cup washers & fixings x 50
- Earth Grounding kit set

Middle Split Perforated Door

FIXED SHELF - X SERIES

Shelf assembly to 19" panel mounting angles allow mixed installation with 19" distribution panels.
Material: 1.5mm Steel

Order Code	Mounting	Depth	Used on	Loading (kg)
E 37	19"	370 mm	650 mm deep rack	50
E 45	19"	450 mm	850 mm deep rack	50
E 60	19"	600 mm	850 mm or above deep rack	50
E 70	19"	700 mm	950 mm or above deep rack	50
ED 60	19"	600 mm	850 mm or above deep rack	100
ED 70	19"	700 mm	950 mm or above deep rack	100

SLIDING SHELF - X SERIES

Shelf assembly to 19" panel mounting angles allow mixed installation with 19" distribution panels.
Material: 1.5mm Steel

Order Code	Mounting	Depth	Used on	Loading (kg)
ES 37	19"	370 mm	650 mm deep rack	35
ES 45	19"	450 mm	850 mm deep rack	35
ES 60	19"	600 mm	850 mm or above deep rack	35
ESD 60	19"	600 mm	850 mm or above deep rack	100

Power Distribution Unit (U.K)

Applications

- Data Center
- Computer workstations
- Lan racking
- Security systems
- UPS power distribution
- Industrial enviroment

Specification

Main Plug: BS1363, IEC320 or IEC60309
 Operating Voltage: 250V AC 50/60Hz
 Rate load current: 13A, 16A, 20A, 27A or 32A
 Max. Power Pmax: 3250W - 8000W
 Operating temperature range: -20° ~ + 70°
 Power indicator : Red or Green LED
